PLANTINGMASTER
HM 200 LX

Efficient Transplanting,
Healthier Crop!

**Higher Manpower
Efficiency**

**Lower Cost of
Transplanting**

**Healthier
Crop**

FEATURES AT GLANCE

MULTI-CROP COMPATIBILITY

Mahindra PlantingMaster HM 200 LX is suitable to work with multiple crops, making it usable in multiple seasons.

Adjustable Row to Row Distance

Makes it compatible to work with multiple crops.

Adjustable Planting Depth

Can adjust planting depth for seedlings with different heights.

Multi-size Quick Release Ploughshare

Makes it suitable to use with varying bulb sizes.

Extension and Reduction Cups

For seedlings of different sizes.

3 Way Adjustable Metal Ridging Wheel

Can be adjusted for different soil types, soil conditions and seedling size.

LOWERS COST OF TRANSPLANTING

Mahindra PlantingMaster HM 200 LX is a mechanized solution that reduces cost of cultivation.

No PTO/Hydraulics

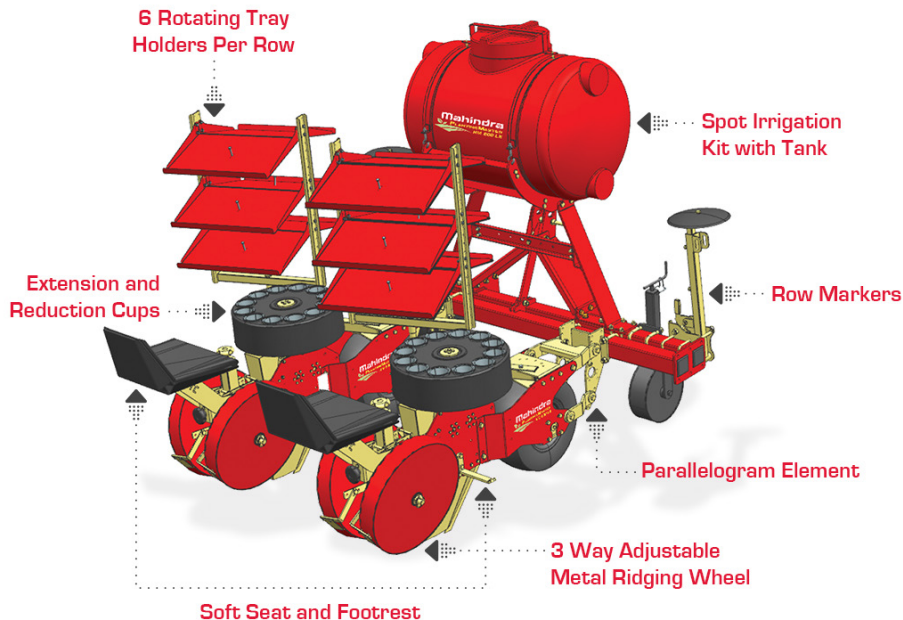

Low maintenance costs for transplanter.

Low Tractor RPM Operation

Low fuel consumption.

FEATURES AT GLANCE

HIGHER MANPOWER EFFICIENCY

Mahindra PlantingMaster HM 200LX makes it possible to transplant 8000 to 20000 m² (approximately 2 to 5 acres) with 4 persons per day. It also makes transplanting efficient and hassle-free.

6 Rotating Tray Holders Per Row

Carries large number of saplings, reducing number of reloads required. 'Rotating' feature enables easy access to saplings.

Soft Seat and Footrest

Allows operator to work comfortably for long hours.

Spot Irrigation Kit with Tank

Irrigates sufficiently around sapling roots.
Saves time required for refills.

FEATURES AT GLANCE

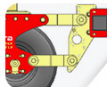

HELPS GROW A HEALTHIER CROP

Mahindra PlantingMaster HM 200 LX supports farmers to grow a healthier crop. Its mechanism ensures uniform planting depth and plant to plant spacing, ultimately leading to a uniformly growing crop.

Row Markers

Helps maintain uniform row to row spacing after turns.

Parallelogram Element

Automatically adjusts planter to maintain uniform planting depth across the field.

Assisted Plant Placement

Prevents seedling bulb breakage which ensures low mortality rate and faster plant development.

Mahindra PlantingMaster HM 200 LX is a multi-crop semi-automatic tray seedling transplanter. It is a labor-saving solution that helps you transplant saplings with precision and uniformity leading to a healthier crop. Mahindra PlantingMaster HM 200 LX, which uses European technology, has been specially designed for superior performance in Indian conditions.
