

# Rice Transplantation Made Simple

## MAHINDRA RICE TRANSPLANTER MP 461

- Better in power
- Faster in work
- Smarter in plantation

### FEATURES:

Easy Accessible Control  
Especially For Indian Farmer

Rubber Long Life Lugged Wheel for  
Better traction While Transplanting

Seeding Feed  
Adjustment

Recoil starter  
with choke

Wheel Height Adjustment  
for Different Soil Depth

Effective hydraulic and  
auto hydraulic system

Seedling plantation depth adjustment  
according to height of nursery

Manual transplantation involves a lot of hardwork & consumes more time. Mechanization in rice transplantation would not only remove human drudgery but also do the transplantation faster. Precise transplantation by maintaining plant to plant distance & number of saplings per hills helps in better weeding & interculture. It also contributes to overall productivity.

### Specification\*

Model	Unit	MP461
Type		4 rows
Engine	Model	MF168FB
	Type	Air-cooled, single-cylinder, 4 stroke
	Displacement	cm <sup>3</sup> 196
	Rated Output	kW and r/min 3.72 and 1700
	Fuel	Petrol
	Fuel Capacity	L 3.5
Transmission	Number of Wheels	2
	Wheel	Type Rubber lug wheel
		mm 660
	Number of Gears	2F+1R
	Main Clutch	Belt tension
	Vertical Handle Adjustment	Rotating steeples adjustment
Planter	Planting Depth	cm 5 Step
	Number of Rows	4
	Distance Between Rows	mm 300
	Planting Pitch	mm 160,180,210
	Seeding Feed Mechanism	Wide feeder belt system
Planting Speed	m/s	0.4-0.85
Travel Speed on Road	m/s	1.78
Dimension	Overall Length	Working (mm) 2300
	Over Width	Working (mm) 1680
	Over Height	Working (mm) 790
Weight	Operating	kg 180

### Mahindra manual seeder machine for precision nursery preparation.

#### Advantage

Easy and fast sowing.

Uniform seed distribution.

Useful for covering seed by media.

Useful for tray type as well as mat type nursery.

#### Specification

Drive System: Wheel drive

Hopper capacity: 12 kg

Machine weight: 8 kg

\* **Nursery trays** are available as per requirements.

- Automatic Float Adjustment Mechanism For Uniform Depth • Ergonomically Designed For Operator Comfort
- Robust Design For Increased Life Span
